DETAILED ACTION

1. This office action is in response to application 10/624,615 and response filed on 8/18/2005. Claims 1-16 remain pending in the application.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

2. Claims 1-16 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a method for completing the routing of a partially routed design of an integrated circuit containing unrouted pins comprising the steps of routing the unrouted pins to generate a first plurality of nets that contains a plurality of shorts or overlaps between nets; analyzing the first plurality of said nets to obtain timing information; partitioning, based on the timing information, the first plurality of nets into a first set of nets (referred to non-critical nets) and a second set of nets (referred to critical nets); hiding the first set of nets; rerouting a subset of the second set of nets to substantially remove all overlaps in the second set of nets; unhiding the first set of nets; and rerouting a subset of the first set of nets and a subset of the rerouted second set of nets to substantially remove the plurality of overlaps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
